FOR IMMEDIATE RELEASE

Chairwoman of Solectria Renewables Named in Top Women to Watch

Lawrence, MA – March 20, 2013 – [Solectria Renewables, LLC](#), the leading U.S. PV inverter manufacturer, announced today that Anita Worden, Chairwoman of Solectria Renewables, has been named one of the 20 “Women to Watch” by Mass High Tech.

Mass High Tech has named its [2013 Women to Watch](#) honorees. Now in its 10th year, the annual Women to Watch program recognizes women in tech and life sciences who are thought leaders in their field and shaping the future of their industries for years to come. This year’s honorees were selected from more than 125 nominations.

"As more technology and life sciences companies continue to put amazingly bright and powerful women in more prominent roles, the Women to Watch awards continues to shine a much deserved spotlight on these women and continues to acknowledge them for their leadership behind the scenes in the office and in their community. This year’s honorees come from a broad range of sectors including clean tech, academia and biotech, showing the growth of women in leadership roles throughout many industries. Mass High Tech is proud to honor these women and looks forward to their continued success," said [Chris McIntosh](#), Publisher, Mass High Tech/Boston Business Journal.

“The Women to Watch award is a true honor. I am humbled to be recognized along with the many talented honorees who are making a difference in our world. Hopefully we can inspire other young women to pursue their dreams and make an impact in world of high technology,” said [Anita Worden](#), Chairwoman for Solectria Renewables.

About Solectria Renewables, LLC

[Solectria Renewables, LLC](#) is the leading U.S.-based grid-tied photovoltaic inverter manufacturer. We offer residential, commercial and utility-scale inverters. Our versatile line of high efficiency products provide power solutions ranging from 1 kW residential systems to multi-megawatt solar farms. Solectria Renewables’ products are backed by more than 20 years of experience in the power electronic and inverter industries and are supported by world class warranties. All of our commercial and utility-scale PV inverters are manufactured in the USA, ARRA compliant, Ontario FIT Content Compliant, and listed to UL 1741/IEEE 1547.

About Mass High Tech

[Mass High Tech](#), Intelligence for New England’s Innovation Economy, specializes in covering the region's incubation of next generation technologies and the people and companies behind our innovation economy. New England's technology and life sciences executives and engineers rely on MHT to track the pulse of local market forces, to identify new trends, detect emerging competition and uncover new opportunities. MHT gains efficiencies in its growing verticals and events businesses by combining resources with the Boston Business Journal, its sister publication, and providing wider opportunities for business partners to reach the widest possible audience of the region’s top tech and business leaders.
