

Commercial PV Inverter/Module/Racking Training

Please join Solectria, Mitsubishi & GameChange for
Commercial PV Training

Wednesday, 9/17 from 8am-1pm

@ Mitsubishi Electric's HQ, 5900 Katella Avenue - Building C, Cypress, CA

Topics include:

- **Solectria Renewables: Commercial Design Considerations:**
 - DC & AC Design Considerations
 - Industry Design Trends (3-Ph String, AFDI, rapid shutdown)
 - Solectria Products: PVI 14-28TL, PVI 50-100KW, PVI 225-500PE
- **Mitsubishi Electric: Reliability & Bankability of a Solar Panel**
 - How can you identify modules that are up to the task?
 - How do you evaluate two performance dimensions for determining PV module bankability?
 - The most common points of technical failure in a PV module
 - Product design strategies addressing common vulnerabilities
- **GameChange Racking: How GameChange Reduces Overall System Cost & Improves Your Profitability**
 - Making Racking Simple
 - Faster to Install
 - Bankability & Quality
 - Lower Overall Cost
 - Types of Racking

COST: \$25 ~ Breakfast & Lunch included

4 NABCEP CEU's
