

**FOR IMMEDIATE RELEASE****Yaskawa Solectria Solar is Proud to Say, Made in the USA**

*Showcasing American Made Inverters at RE+ 2023, Booth 925, Sands Level 2*

**Lawrence, MA, August 30, 2023** - Yaskawa Solectria Solar will exhibit at RE+ 2023, September 11 - 14, at the Sands Convention Center in Las Vegas, NV. As the largest renewable energy event in North America, Yaskawa Solectria Solar will proudly display their Made in the USA inverters and accessories.

Visitors to booth #925 Sands Level 2 can expect to see the company's complete product line of inverters ranging from 25kW to 250kW, string combiners and web-based monitoring for all size solar systems. All of Solectria's XGI three-phase commercial and utility inverters are Made in the USA with U.S. and global components at the Yaskawa America factory in Buffalo Grove, IL and are the only PV inverters designed and manufactured in the USA. Furthermore, Solectria's XGI inverters enable our customers to qualify for the Domestic Content Bonus Credit under the new Inflation Reduction Act (IRA) provisions.

*"As the largest and longest-standing U.S. Manufacturer of PV inverters for Commercial and Utility applications, Yaskawa Solectria Solar is proud to showcase our newest XGI 1500 inverter models and energy storage solutions at RE+ this year" said Mark Goodreau, General Manager at Yaskawa Solectria Solar. "We look forward to helping project developers and owners to qualify for the 10% Domestic Content Bonus Credit by designing PV systems with our U.S. manufactured inverters."*

**Booth Highlights:**

[SOLECTRIA® XGI 1500-250 Utility String Inverters](#) - Introducing the groundbreaking **SOLECTRIA® XGI 1500-DCG models**. These are a result of our collaboration with First Solar. Designed to work flawlessly with First Solar's PV modules, these models feature an electrically grounded DC input, ensuring optimal performance and longevity. All XGI 1500-250 and XGI 1500-200 inverters feature SiC technology, high power and high efficiency, placing them at the top end of the utility-scale string inverters in the market.

**Learn with Yaskawa** and experience the difference between book smart and factory smart with Yaskawa's Technical Training Services. [Solectria's hands-on troubleshooting training](#) for our XGI 1500 inverters is designed to give attendees the knowledge and skills to maximize inverter performance and uptime in the field.

**About Yaskawa Solectria Solar**

Yaskawa Solectria Solar is a wholly-owned subsidiary of Yaskawa America, Inc. and the largest inverter manufacturer based in the USA, with headquarters in Lawrence, MA, and world-class production facilities in Buffalo Grove, IL and Oak Creek, WI. Solectria's products include inverters ranging from 25kW to 250kW, string combiners and web-based monitoring for all size solar systems. All of Solectria's three-phase utility inverters are made in the USA with global components and meet the Federal Acquisition Regulations (FAR) definitions of a Commercial Off-The-Shelf (COTS) item. This also qualifies our Solectria inverters as domestic end products, compliant with the Buy American Act (BAA). Solectria is backed by Yaskawa, with over 100 years of power electronics and inverter experience and continues to exceed expectations and provide new innovations in the marketplace.
