FOR IMMEDIATE RELEASE

American Made Innovation and Commitment

Showcasing Yaskawa Solectria Solar Solutions at RE+2026, Booth C4622

Lawrence, MA, November 3, 2026 – Race on over and join Team Solectria at the RE+ 2026, the fastest growing and largest clean energy show in North America. Set in Las Vegas November 16-19, the event is making its debut at the Las Vegas Convention Center. Make sure to make a pit stop at the Yaskawa Solectria Solar booth C4622 to visit our Fan Zone and snap a photo in the Winner's Circle!

We are proud to share our American made Yaskawa Solectria Solar product family featuring our flagship **SOLECTRIA® XGI 1500 inverters** for 1500V commercial and utility-scale systems, a full lineup of string combiners designed for the XGI inverters, 1-2MW factory-integrated **PowerRacks,** and **DC-Coupled Storage Solutions**. Additionally, our newest inverter solution, the powerful, scalable **XGI 1500 Modular Central Inverter** will be on display in the booth.

With over 20 years in the industry, our commitment to quality, innovation, and a complete, **full-circle ecosystem of solutions** continues to drive our role in advancing solar power and shaping the future of solar.

Visit Booth C4622 To Learn More About:
Our new webinar series "Recharge with Solectria. Learn, assess and apply the latest in solar technology, industry trends, and expert insights with our bimonthly webinar sessions which will continue into 2027.

Our hands-on classroom training "Learn with Yaskawa Solectria Solar". This one-of-a-kind industry training provides the safest and most effective process of troubleshooting a XGI 1500 Solar Inverter with students successfully completing the class, able to provide Levels 1 and 2 servicing.

Our Made in the USA Factory Tours. As the largest U.S.-based inverter manufacturer, from start to finish, attendees will get an up-close look at the manufacturing of our flagship product, the SOLECTRIA® XGI 1500 Inverter. These utility-scale PV inverters range in size from 125kW to 250kW and are the only PV inverters designed, made, and serviced in the USA.

Visit our **RE+2026 Yaskawa Solectria Solar webpage** for further **show details and to schedule an onsite meeting** with our team!

About Yaskawa Solectria Solar
Yaskawa Solectria Solar, a wholly owned subsidiary of Yaskawa America, Inc., is the largest U.S.-based inverter manufacturer, with design and engineering offices in Lawrence, MA, and world-class production facilities in Buffalo Grove, IL and Franklin, WI. With over 20+ years of experience Yaskawa Solectria Solar is the only PV inverter designed, made, and serviced in the USA. The company's flagship American-made product line, the Solectria® XGI 1500 inverters, along with the XGI 1500-1MW Series Inverters, a full lineup of string combiners designed for the XGI inverters, 1-2MW factory-integrated Power Racks, and DC-coupled and AC-coupled storage solutions complete the product family. With this full product solution Yaskawa Solectria Solar remains committed to delivering the highest-quality solar inverters and driving innovation in the industry. To learn more please visit www.solectria.com.

Yaskawa is the leading global manufacturer of low and medium voltage variable frequency drives, servo systems, machine controllers and industrial robots. Our standard products, as well as tailor-made solutions, are well known and have a high reputation for outstanding quality and reliability. To learn more please visit www.yaskawa.com.
